Dear Friends,

On behalf of the Lung Cancer Research Foundation (LCRF), thank you for your generous contribution of \$200 received on March 12, 2018. With help from donors like you, we are making great headway in the fight against lung cancer, the leading cause of cancer death worldwide.

Although lung cancer is the number one cancer killer in the world, per death, lung cancer is the most underfunded type of cancer. LCRF supports innovative, high-reward research that might otherwise go unfunded. Our organization was founded with the intent to fund science that would help prevent, treat and cure lung cancer so others' loved ones wouldn't be lost.

There has been tremendous progress in the field of lung cancer research and we hope to continue this momentum as we work to eradicate this deadly disease. To date, we have funded 343 grants, totaling nearly \$35 million, the highest amount of funding provided by a nonprofit organization dedicated to funding lung cancer research.

Please accept my thanks and appreciation for your important support.

Sincerely,

Nancy M. Sanford
Executive Director

On September 30, 2017, the Lung Cancer Research Foundation (LCRF) and Free to Breathe (FtB) merged to further our impact on lung cancer research discoveries. LCRF's name will be retained to best reflect our shared mission: to improve lung cancer outcomes by funding research for the prevention, diagnosis, treatment and cure of lung cancer.
